We are absolutely delighted with the transformation to our early years area; it is now a bright and vibrant interactive play space which the children (and staff) are thoroughly enjoying.

We gave the Playground Company a blank canvas, talked through some of our ideas and they came back with some amazing drawings. Its colourful design makes us all smile. Customer service was excellent from beginning to end and nothing was too much trouble...

- St Thomas More's School

First class service from all who were involved from the design team to the construction team.

All of our children and staff have given the project a massive thumbs up.

- Byley Primary School

We are delighted with our brand new play area thanks to The Playground Company. It is bright, colourful and practical. We have already had lots of wonderful comments about it from parents, visitors and most importantly the children who love it!. The roadway and bridge is very popular, the children just love zooming around it on their balance bikes and scooters. The team that fitted the playground were very efficient and work hard to complete the work within the timeframe. They were very obliging to carry out the work around the obstacles of a busy school day.

# 5 Step Playground Installation Process

## Step 1 – Contact us

Contact us via phone, email or simply fill in our website contact form.

One of our team members will be in touch to arrange a suitable date and time to visit the area you would like to redevelop.

[www.theplaygroundcompany.co.uk/contact-us](http://www.theplaygroundcompany.co.uk/contact-us)

## Step 2 – Site Visit

What happens when we come to visit?

It's a quick and straightforward process...

Our sales representative will take measurements and photos and gather any additional information, making suggestions of what may further benefit your playground.

## Step 3 – Quote & Design

Our designers will review the information and create a magnificent design to make the most of the available space and budget.

A quote is carefully put together with all of the product and surfacing information.

## Step 4 – Present & Amend

The quote and design is presented on our online quoting system, which you can view as many times as you like. At this stage, there are no obligations, so don't worry!

If you would like to make changes to your design, we will rewind back to step 3.

## Step 5 – Installation

Once your order is placed, we will discuss the perfect date for installation (if we haven't already).

Then our installation team will get to work bringing your design to life!

Roadway-themed playground equipment and surfacing is an excellent addition to outdoor play settings, they provide opportunities to promote socialisation, imagination, creativity and physical development.

Roadways encourage children to interact with one another and to take turns and communicate which can also develop communication, negotiation and social skills.

A Roadway themed playground can enhance the visual appeal of your school or nursery. A visually stimulating and enjoyable outdoor environment can also help attract new families, both in enrolment and retention rates.

# Multi Use Games Area

Multi Use Games Areas are incredibly versatile and can be installed at any size to suit the players' intended age range and ability. With a variety of different fencing, goal ends, surfacing and colour options to choose from, you can create the perfect area for the sports of your choice. MUGA's can be installed directly into an existing grass area or onto tarmac.

One of our most popular multi-use areas is an artificial grass sports court, installed with:

Football Markings – choose one sport or combine multiple of your choice.

Steel Sports Mesh Fencing – perfect for keeping the ball on the pitch and protecting others outside of the area.

Classic Goal Ends – simple and effective finish with back mesh to prevent the ball from rolling away.

Optional Viewing Benches – so children, parents or teachers can safely watch the fun sporting activities.

# Planters & Planter Benches

**Veggie Beds**  
Raised beds for fruit & veg

**Tiered Window Planter**   
Added tiers to keep plants separate

**Armrest Planter**  
2.5m Double Armrest Planter Bench

**Living Wall**   
Holds plant pots/chalkboard panels

**Single Window Planter**   
Root/worm viewing dome window

Planter Benches create 'quiet areas' within your playground that are ideal for reading, gardening and escaping loud areas. Planters encourage children to learn about wildlife conservation and are great for incorporating nature into the less natural parts of your playground. They also increase the amount of creepy crawlies that visit!

**Simple Planters** 

**Pergola Entrance** 

**Square Planter Bench**

**Corner Planter Benches**
